Keywords: keyword2, keyword2, keyword3

1. Paper (LibreOffice template)

Each manuscript should be submitted on **A4 paper**. The fully justified text should be formatted in two parallel columns, each 8.25 cm wide, and separated by a space of 0.63 cm. Left, right, and bottom margins should be 1.9 cm. and the top margin 2.5 cm. The font for the main body of the text should be Times 10 pt with interlinear spacing of 12 pt.

Articles must be between 2 and 4 pages in length, regardless of the mode of presentation (oral or poster).

2. General Instructions

Each paper is allocated between **a minimum of 2 and a maximum of 4 pages** including figures. The **unprotected PDF** files will be published online. Do not include the page numbers.

3. Page numbering

Please do not include page numbers in your article. The final page numbering of articles in the proceedings will be decided by the organizing committee.

4. Headings/Level 1 Headings

Headings must be capitalised in the same way as the main title, (**The Rise and Fall of Ziggy Stardust and the Spiders from Mars**) and centred within the column. The font used is Times 12pt bold. There should also be a space of 12 pt between the title and the preceding section, and a space of 3 pt between the title and the text following it.

4.1. Level Headings 2

The format for level 2 headings is basically the same as for level 1 Headings. However, the font is Times 11, and the heading is justified to the left of the column.

4.1.1. Level Headings 3

The format for level 3 headings is the same as for level 2 headings, except that the font is Times 10, and there should be no space left between the heading and the text.

5. Citing References in the Text

All references within the text should be placed in parentheses containing the author's surname followed by a comma before the date of publication (Martin, 1990). If the sentence already includes the author's name, then it is only necessary to put the date in parentheses: Martin (1990). When several authors are cited, those references should be separated with a semicolon: (Martin, 1990; Castor & Pollux, 1992). When the reference has more than three authors, only cite the name of the first author followed by et al.

6. Figures & Tables

6.1. Figures

All figures should be centred and clearly distinguishable. They should never be drawn by hand. Figures should be numbered in the text, and have a caption in Times 10 pt underneath. A space must be left between each figure and its respective caption, like in the example below.

Figure 1: Caption.

Figure and caption should always appear together on the same page. Large figures can be centred, using a full page.

6.2. Tables

The instructions for tables are the same as for figures (see previous section).

Example:

<i>Level</i>	<i>Tools</i>
Morphology	Pitrat Analyser
Syntax	LFG Analyser (C-Structure)
Semantics	LFT F-Structures + Sowa's Conceptual Graphs

Table 1: Caption.

7. Footnotes

Footnotes are indicated within the text by a number in superscript.¹

8. Copyrights

Proceedings will be published under a Creative Commons Attribution 4.0 International license.

9. Acknowledgements

Place all acknowledgements (including those concerning research grants and funding) in a separate section at the end of the article.

10. References

Bibliographical references should be listed in alphabetical order at the end of the article. The title of the section, "References", should be a level 1 heading. The first line of each bibliographical reference should be justified to the left of the column, and the rest of the entry should be indented by 0.35 cm.

The following examples (some of which of fictitious references) illustrate the basic format required for articles

in conference proceedings, books, journal articles, Ph.D. theses, and chapters of books.
